

A Thank you from your CHIS colleagues

Dear colleagues,

We wanted to take this opportunity to thank you for your ongoing support, we recognise that during the last 2 years this has been during a particularly challenging time for you all. Your continued support in assisting us with our routine enquiries and also those relating to COVER, has enabled us to receive a 100% response rate again from all of our practices across the BaNES patch for quarter 3. We really appreciate your support in helping us to achieve this and it ensure the data published for your practice is fully accurate.

Thank you again for your support and engagement with our service and we look forward to continuing to work with you.

Kind regards
Charlotte Thwaites
Regional Child Health Information Services Manager
(BaNES, Gloucestershire and Swindon)
