

## BaNES, Wiltshire and Swindon Teledermatology

### Training Opportunities

In 15-20% of Telederm requests the image quality is of insufficient quality for the consultant to provide accurate diagnostic advice. This is therefore a waste of the GP, Consultant, and patient's time. Put this right by attending one of the following training opportunities.

1. Half day online Dermoscopy training – Beginners Part 1
2. Half day online Dermoscopy training – Beginners Part 2

Half day training – *“the best online training I have ever done”* – BSW GP, 2020  
Point of contact for any queries – [Lauraine.jones@nhs.net](mailto:Lauraine.jones@nhs.net)

#### 1. Half day online Dermoscopy training – Beginners Part 1

This half day online session is delivered via Zoom, and presented by Dr Chin Whybrew. Chin is a GP in Cheltenham with a passion for primary care dermatology, and Dermoscopy in particular. She has been teaching Dermoscopy since 2012, for the Cardiff Dermoscopy course, Primary Care Dermatology Society and independently for practices and CCGs across the UK. This is an interactive course with plenty of opportunity to practice assessing lesions.

- How dermoscopy works and practical tips, including how to get good dermoscopy photos and troubleshooting tips
- A practical demonstration of the Dermlite Hybrid DL200. This includes how to turn it on, focus it, charge it, clean it etc.
- Interpretation of dermoscopic structures in benign lesions (seb K, angiomas, warts, dermatofibromas, sebaceous hyperplasia, comedones), BCCs and melanomas (and how this always needs to be taken in clinical context)
- How to put it all together into a simple algorithm
- Other uses of dermoscopy in primary care

You are invited to a Zoom meeting.

Dermoscopy for Beginners Part 1

When: Thurs Apr 28, 2022 2:00 PM

Register in advance for this meeting:

<https://us02web.zoom.us/join/register/tZMtd-ygpjgpGtZlztM6MrbD5hv-hSG6NvkN>

After registering, you will receive a confirmation email containing information about joining the meeting.

Dermoscopy for Beginners part 1

When: Thurs Jun 9, 2022 9:00 AM

Register in advance for this meeting:

<https://us02web.zoom.us/join/register/tZEucuChqD8vE9CRMsOwRUMqf0q0K0qMWg48>

After registering, you will receive a confirmation email containing information about joining the meeting.

Please circulate to Colleagues as appropriate. All training is appropriate for allied Clinicians e.g. Nurses and HCAs who wish to know more or work with dermatology.

## **2. Half day online Dermoscopy training – Beginners Part 2**

This half day online session is delivered via Zoom, and presented by Dr Chin Whybrew. Chin is a GP in Cheltenham with a passion for primary care dermatology, and Dermoscopy in particular. She has been teaching Dermoscopy since 2012, for the Cardiff Dermoscopy course, Primary Care Dermatology Society and independently for practices and CCGs across the UK. This is the follow up session from part 1, and I recommend getting used to handling the scope for several weeks in between the two parts.

- Recap of how to use the scope, benign lesions and BCCs
- Actinic keratosis, Bowens and SCC
- Special sites – palms and soles, faces
- More about naevi and melanomas
- More BCCs including pigmented and superficial BCCs

You are invited to a Zoom meeting.

**Dermoscopy for Beginners part 2**

**When: Thurs May 19, 2022 2:00 PM**
