COVID-19 vaccination programme: training products list

Version 1, 26 November 2020

Training products - owners and status (non-COVID-specific)

NHS

This table provides a list of training products that will need to be completed. Please refer to the training pathways in the Workforce and Training Toolkit, to determine whether they need to be completed by role. The green highlighted rows indicate training is available and people complete them. Orange highlighted rows indicate training is yet to be published. Grey highlighted rows indicate the training product is to be confirmed.
