How lifestyle can affect a person's risk of developing cancer

Cancer Awareness and Screening Workshop

A free one hour Cancer Awareness & Screening Workshop for reception and admin staff

Initiatives to improve the uptake of screening programmes

'All parts were useful. Clear graphics, good balance of information given and sought from 'audience'. Helpful information on further sources. Thank you.'

'A really helpful training programme—I have taken a lot from it!'

'Very interesting, well presented. Made it interactive which is good.'
