

Are you a PCN Care Home Clinical Lead?

Come to a peer learning network for Care Home Clinical Leads in the South West

You are invited to come and join other Clinical Leads from across the South West in a learning and development forum. This is a clinically led forum which will provide the space to think and share, be solution focused, and support leadership. It is an opportunity to learn and make a difference. It is an open and safe forum led by what you need to grow this role and way of working.

We recognise that the Clinical Lead role was established during an pandemic, and there was little time to focus on what is needed to enable you to succeed in the role, this is a network run bi-monthly to support you in your development. It is open to any PCN care home lead and supporting roles.
