

June 2020 Update

New recruitment

Saimah Anwar has joined GatewayC as an Educational Developer and brings a wealth of experience to the role.

Formally an employee of Jo's Cervical Cancer Trust and Manchester University NHS Foundation Trust; Saimah has over seven years of experience in health improvement and public health engagement.

New mailing list function

This allows non-registered users to receive weekly emails containing bite-sized cancer education, blogs and updates from the GatewayC team. [Register here.](#)

Cancer and coronavirus content

GatewayC has a dedicated [cancer and coronavirus page](#), which is intended to share key messaging to all users. Highly engaged content includes: 'Covid-19 and Neutropenic Sepsis' and 'Persistent Cough: Think COVID-19, Think Cancer'.

New NICE endorsement

NICE endorsement received for GatewayC's [Lung Cancer - Early Diagnosis](#) and [Brain Tumour – Early Diagnosis](#) courses.

User feedback:

Lung Cancer – Early Diagnosis: "Excellent course on new guidelines & evidence"

Brain Tumour – Early Diagnosis: "Good format, interactive and stimulating, very useful module"

Two new courses due to be released in July/ August 2020

- Ovarian Cancer – Early Diagnosis will examine recognising symptoms, genetic risk factors and essential investigations.
- Managing Physical Effects will address peripheral neuropathy, lymphoedema, bone health and cardiovascular health.
- Other courses in development include Cervical Cancer and Oesophageal cancer.
