11-Jun-2018	Red blood cell count	5.69	10 ¹² /L
11-Jun-2018	Mean cell haemoglobin concentration	32.1	g/dL
11-Jun-2018	International normalised ratio	1.9	

How do I access ICR from SystemOne?

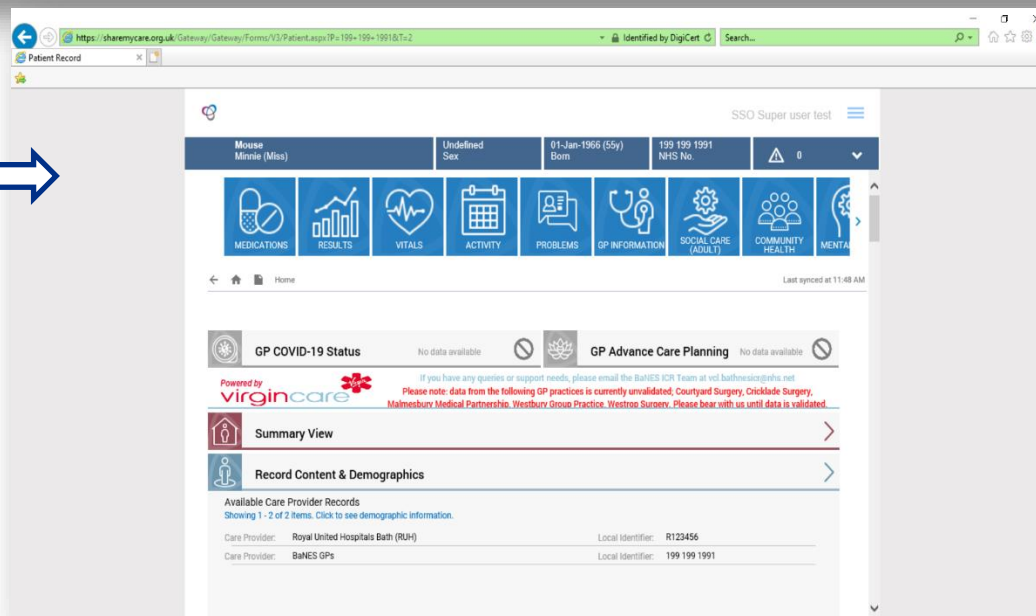

The screenshot shows the SystemOne interface for a Clinical Application Administrator. The top menu includes Patient, Appointments, Reporting, Audit, Setup, Links, Clinical Tools, Workflow, User, System, and Help. A toolbar contains various icons for search, discard, task, save, details, note, next, acute, BNF, gnote, patient, map, GP2GP, and integrate. A patient list is displayed with columns for NHS Number, First Name, Middle Names, Surname, DOB, L., House Name, House, Road, Postcode, and Telephone. The patient Minnie Mouse-TestPatient is highlighted. A blue arrow points to the ICR button in the top right corner of the interface.

Miss Minnie Mouse-TestPatient 01 Jan 2004 (16 y 4 m) F
1 Cheese Street, West Lavington, Devizes SN10 4JB
Home (preferred): 01380 222555 Mobile: 07777 998562 Test, Applied, Courtyard Surgery

NHS Number	First Name	Middle Names	Surname	DOB	L.	House Name	House	Road	Postcode	Telephone
	Mimi		Harding-Tes...	24 Jan 2009	T	F	3	Hawkeridge Road	BA14 6AD	01225 706 5...
	Maisie		Mouse-Test...	06 Nov 1963	T	F	26	Emmenthal	SN10 4JB	
	Mickey		Mouse-Test...	25 May 1955	T	M	39	High Street	SN10 4JB	01380 813300
	Minnie		Mouse-Test...	01 Jan 2004	T	F	1	Cheese Street	SN10 4JB	01380 222555
	Tina		Test-TestPat...	07 Jun 1949	T	F	123	Colour road		

With your patient already retrieved, click on the ICR button as indicated above.

An Internet Explorer page will open (possibly behind SystemOne) and launch directly into the shared record for the patient you had retrieved.

The screenshot shows a web browser displaying the patient record page for Minnie Mouse (Miss). The page includes a navigation bar with icons for Medications, Results, Vitals, Activity, Problems, GP Information, Social Care (Adult), Community Health, and Mental Health. Below the navigation bar, there are sections for GP COVID-19 Status and GP Advance Care Planning, both with "No data available" status. The page is powered by VirginCare and includes a summary view and record content & demographics section. The available care provider records are listed below.

GP COVID-19 Status No data available GP Advance Care Planning No data available

What will I be able to See? (video)

Watch the short video below (**NB this video has no sound**) for a brief overview of how the ICR is set out and where you can find relevant information. Please note due to IG considerations this video was made on a test patient therefore the record contains no information.

[Patient Record Work - YouTube](#)

ICR Overview

The following slides show the information contained within ICR

1. Landing Page
2. Hospital Activity
3. Community
4. Mental Health
5. Social Care
6. Set up ICR access in TPP

1. Landing Page

When you access to ICR from TPP you will be directed to the Summary Page for that patient's record

The screenshot displays the patient summary page in TPP. It is divided into three main sections:

- 1. Patient Banner:** A blue header bar containing patient details: TEST MR, Male Sex, 01-May-1965 (55y) Born, and Not recorded NHS No. A warning icon and a dropdown arrow are also present.
- 2. Navigation Tiles:** A row of ten blue tiles with white icons representing different data sections: MEDICATIONS, RESULTS, VITALS, ACTIVITY, PROBLEMS, GP INFORMATION, SOCIAL CARE (ADULT), COMMUNITY HEALTH, and MENTAL. A red box highlights this row.
- 3. Hub Tiles:** A section below the navigation tiles containing:
 - GP COVID-19 Status: No data available.
 - GP Advance Care Planning: No data available.
 - Powered by virgin care logo.
 - Summary View: A tile with a house icon and a right-pointing arrow.
 - Record Content & Demographics: A tile with a person icon and a right-pointing arrow.
 - Available Care Provider Records: Showing 1 - 1 of 1 items. Click to see demographic information.
 - Care Provider: Royal United Hospitals Bath (RUH). Local Identifier: 2031170.

A green box highlights the '3. Hub Tiles' section.

- The summary page shows the patient's record by using Navigation and Hub Tiles to display the data for different sections of information such as Medications, Results and Activity data.
- This is the default page after accessing a patient record.

2. Hospital Activity – Test Results

RUH is now sending reports to ICR for:

- ✓ Flexible cystoscopies
- ✓ Colonoscopies
- ✓ Gastroscopies, and
- ✓ Flexible Sigmoidoscopies

Reports are completed on the day of the test and sent into the ICR in real time into the Clinical Documents tile.

Doctors will be able to see:
 - Appointment for tests
 - Results

Patient was admitted for Gastroscopy and the report is in the Clinical Letters view.

Hospital Activity			
Outpatient Activity Showing 1 - 2 of 28 items			
Outpatient Referral	Specialty: GASTROENTEROLOGY	Referrer: Christopher Bevan	Royal United Hospitals Bath (RUH)
02-Feb-2021 00:00	Clinician: Unknown Clinician		
Outpatient Discharge	Specialty: Clinical Haematology	Referrer:	Royal United Hospitals Bath (RUH)

7. Set Up ICR Button in S1

This process will add a new Button to the tool bar for all users and grant access to the ICR while a patient record is retrieved. You do not require any log in details or patient information as it pulls it through automatically.

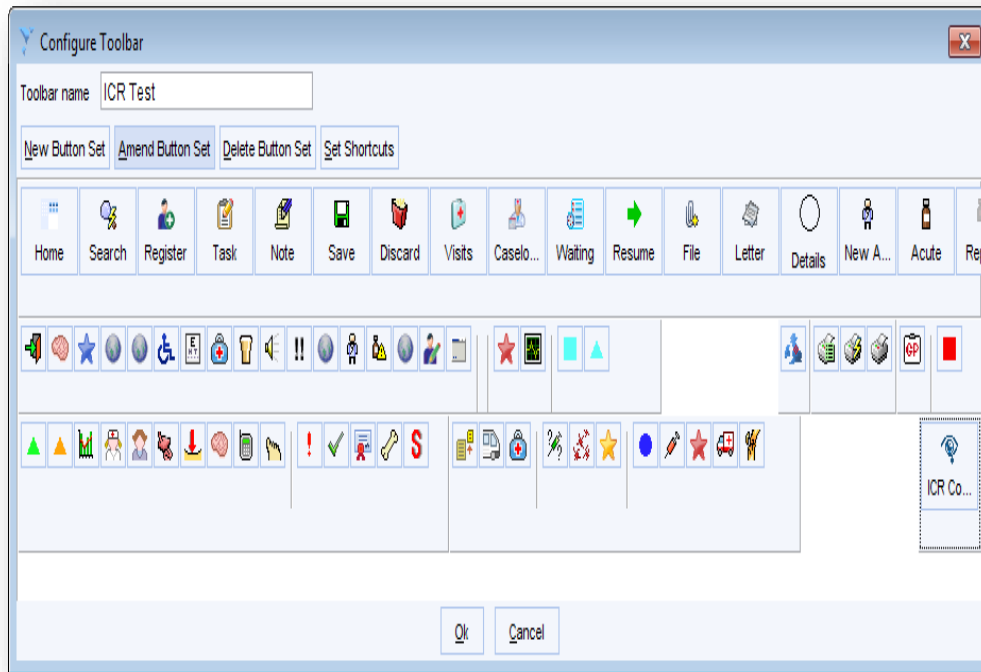

1. Go to Setup>Users & Policy> Organisation Preferences

2. Search for 'Toolbars' in the search bar
3. Once you have 'Toolbars' selected, right Click the default tool bar and select amend

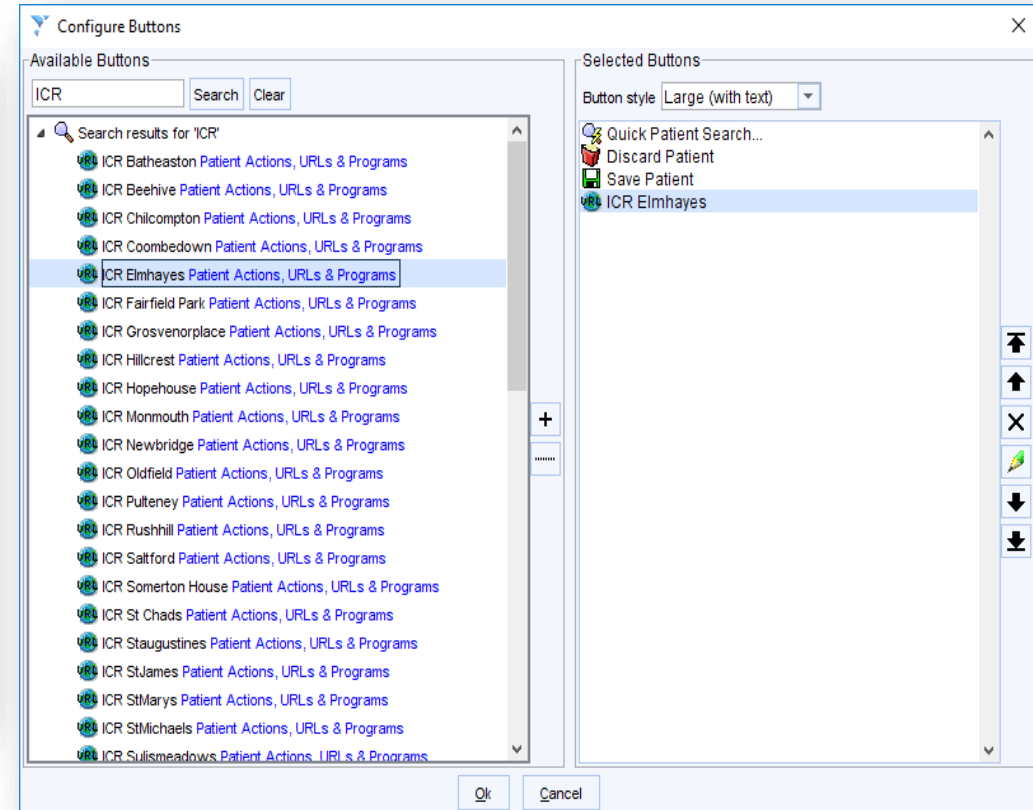

7. Set Up ICR Button in S1

6. Search for 'ICR' in the search bar and find your practice from the list

7. Highlight your practice URL with a left click, and press the + button in the middle of the screen to bring it across to the right screen.

8. Press Ok to close this page, and the one behind it to return to the main page of system one.

9. If configured correctly there should be a new Icon in the tool bar that can be pressed to launch the ICR as long as a patient is retrieved.

Finally, the first time a user uses this button, they will be prompted to put in their name, please do so as well as ticking the box to 'remember' these details to stop it from popping up again.

7. Set Up ICR Button in S1

NB If after following these steps you cannot see the ICR button, it may be that your profile is using a custom tool bar. The same is true for colleagues who cannot see the new button.

To correct this, follow steps 1-3 but instead right click and choose 'set staff toolbar usage' Here you can see the list of users names on the left, identify the staff members who need the default tool bar to see the ICR button, highlight them by left clicking, and then press right arrow to move them across to the left of the screen.
