The LADO must be informed within one working day if it appears that the person has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved in an inappropriate way towards a child which may indicate that s/he is unsuitable to work with children

Additionally the LADO must be informed:

- If there are concerns about the person's behaviour towards their own child/ren or child/ren unrelated to their employment or voluntary work, and there has been a recommendation from a strategy discussion that consideration should be given to the risk posed to children they work with
- When an allegation is made about abuse that took place some time ago and the accused person may still be working with or have contact with children

The CCG Safeguarding Children team (above) can be contacted for advice/support although this shouldn't be a barrier to contacting the LADO
