# **South West Population and Public Health Academy**

**Health Inequalities Webinar  
Series 2**

## Introduction

The South West Population and Public Health Academy in partnership with NHS England and NHS Improvement; and the newly established Office of Health Improvement and Disparities would like to introduce and invite you to the second series of webinars that we will be delivering over the winter and spring.

These webinars have been designed to assist and support you and your response to the next phase of recovery planning requirements, system wide recovery following the COVID-19 pandemic and ongoing delivery of the NHS Long Term Plan. The main focus of these webinars will be health inequalities.

This webinar series will cover a wide variety of topics aimed to increase and consolidate existing knowledge and understanding; and provide you with examples of best practice; practical tips; and resources.

Between October 2021 and March 2022, we will be hosting this series, with the first one being on Long COVID. Please see the following page for details and for access to the registration link for this event.

Other topics featured in this series include the following: High impact changes and intel in support of Core20plus5, coastal towns and health inequalities, Obesity, Public mental health, Cancer, and CVD.

Details of these will be released when they are available.
