

Stakeholder briefing

We know that many of our hospitals in the Severn sub-region continue to be extremely busy, as they are all over the country, treating people with Covid-19 and the usual winter illnesses. At present, we at the Nightingale Hospital Bristol remain in standby – ready to care with compassion when needed.

The Covid-19 vaccination programme continues to offer us all hope and it is heartening to see that, according to yesterday's figures, over half a million cumulative doses of vaccine have been given in the south west region. We know that many of you are involved in supporting and/or delivering the vaccination programme and we thank you for your continued efforts and support.

While we remain in standby, we are proud to continue to provide space for our colleagues from Bristol Eye Hospital and the Bristol Royal Hospital for Children to deliver outpatient services and day case services to support children and adults from across the south-west region.

HFMA Finance Director of the Year

We are very proud that our own Catherine Phillips, (Director of Finance at Nightingale Bristol and at North Bristol NHS Trust) has been [named HFMA Finance Director of the Year](#) for 2020 for her outstanding leadership both prior to and during the Covid-19 pandemic.

Catherine said: "I am so proud the work we have achieved together during the pandemic and I am delighted to have been recognised by my peers with this award."

We are sure you will join us in congratulating Catherine!

Please note: during standby our stakeholder briefings will be fortnightly.
