TeamNET Webinars Newsletter

agilio | TEAMNET

Welcome to TeamNET Webinars

I wanted to take this opportunity to welcome everyone to the very first Agilio TeamNET training newsletter, for those who haven't met me yet I'm Simon, Agilio TeamNET's new dedicated trainer.

We have many plans to develop our suite of webinars to offer a varied, dynamic and extensive training platform. In this newsletter I plan to keep you all informed about what we currently have to offer, what we're working on for the new near future and hopefully share some useful hints and tips along the way.

I hope to see you all on a webinar soon.

- *Simon Dixon* (Product Trainer and Implementation Support – Agilio Primary Care)

TOP TEAMNET TIPS

1. Always save TeamNET in your bookmarks from the home page not the login page.

2. When sharing a link to a TeamNET page always press:

to get the link instead of just copying and pasting the URL.

3. To quickly access the safety alerts module in the table view select the to-do list item.

4. You can upload your CPD for your GP appraisal directly to Clarity Doctors within the "my appraisal" module.

THIS MONTHS FOCUS

Every month we will be focusing on one of our webinars and discussing the benefits of attending and beginning to use the modules.

For our first month I wanted to focus on one of our brand-new webinars – TeamNET for PCNs

TeamNET for PCNs is a webinar that covers all things sharing within TeamNET, after attending you'll be able to share multiple different items down to your practices as well as streamline the processes using our different template features.

Did you know you can email library items directly in to TeamNET? Or that you can use topic pages to share content to practices without having to add each item to their portals?

Learn all about in TeamNET for PCNs.

agilio | TEAMNET This Month's Webinars

[TeamNet Basics \(60 minutes\)](#)

Join me for one of our regular TeamNet Basics webinars and get started.
