

# Clinical Pharmacy Practice

UNIVERSITY OF  
**BATH**

## Advanced Post-registration Training for Primary Care Pharmacists

Join the University of Bath to support your journey to advanced pharmacist clinical practice in the primary care setting

**Expressions of Interest Invited for Funding, deadline 9am, Monday  
28<sup>th</sup> February 2022**

Develop in-depth clinical knowledge and skills to deliver enhanced and advanced medicines optimisation activities in primary care (community pharmacy, general practice, community hospital and health & justice). You will improve your delivery of safe, patient-focused care with Bath's award-bearing courses.

After successful delivery to 500 students as part of the pharmacy integration programme we are delighted to invite new students to apply for a June 2022 start.

**Pharmacists studying the programme report enhanced clinical knowledge and practice with improved confidence including an improved ability to communicate clinical information and decisions to patients and colleagues.**

## Benefits

- Study at your own pace with minimal time away from work
- Blended learning with online, practice-based and face-to-face elements with excellent support and learning networks
- Tailor your study to suit your role and professional interests and gain increased confidence to develop and extend your clinical and professional role
- Work with advanced practitioners and be inspired by our highly commended, well-structured courses developed by a top-ranked Department of Pharmacy that is an internationally recognised centre of excellence
- Help meet your GPhC CPD requirements and professional development in line with the RPS frameworks
- Option to achieve a Postgraduate Certificate, Diploma or MSc
